Main product

Kurnia Ganik Granule Sack packaging (40 kg)

Packaging size : 56 x 96 cm

HS Code : 3101.00.99

(accept custom compositions or ingredients, resulting in changes to the HS Code)

The characteristics of Kurniaganik fertilizer, which is now in granular form, is that it has a blackish brown color with an organic C content of at least 15%. Kurniaganik can improve soil structure and increase nutrients.

Water retention and absorption as well as enriching macro-micro nutrients, the use of chemical fertilizers contributes to the nutrients becoming more effective and efficient.
